- Get all users(https://postjobapis.herokuapp.com/api/users)
- Get all jobs(https://postjobapis.herokuapp.com/api/postjob)
- Get a job by
  job_id(https://postjobapis.herokuapp.com/api/postjob/60ad4f793677
  6770783e5b38)
- Get jobs by a recruiter _id
  (https://postjobapis.herokuapp.com/api/postjob/byrecruiter/60acfe8
  7c6a37c6bf839bf9e)
- Get users who applied to a
  job(https://postjobapis.herokuapp.com/api/users/bypostJob/60ad1f8
  9813f032e408892f4)
- Get applications for a
  job_id(https://postjobapis.herokuapp.com/api/jobstatus/bypostJob/6
  0ad1f89813f032e408892f4)
- Get all applications for a recruiter_id
  (https://postjobapis.herokuapp.com/api/jobstatus/byrecruiter/60acfe
  87c6a37c6bf839bf9e)

- Get users all applications and their status
  (https://postjobapis.herokuapp.com/api/jobstatus/byuser/60ad236a5
  7bce47984fe79e8)
- Get users status for a particular applied job
  (https://postjobapis.herokuapp.com/api/jobstatus/byuser/60ad229c5
  7bce47984fe79e6/60ad1f89813f032e408892f4)

Note: Please use POSTMAN to verify Authorized API's Functionality.
Below are the details to use authorized API's

Credentials for Candidates and Recruiters to Verify

```
[
 {
    "email": "user1@gmail.com",
    "password": "123456"
 },
 {
    "email": "recruiter1@gmail.com",
    "password": "123456"
 },
 {
    "email": "user2@gmail.com",
    "password": "123456"
 },
 {
    "email": "recruiter2@gmail.com",
    "password": "123456"
 },
 {
    "email": "user3@gmail.com",
    "password": "123456"
 },
 {
    "email": "recruiter2@gmail.com",
    "password": "123456"
 }
]
```
